

server.js

```
const express = require("express");
const path = require("path");
require("dotenv").config();

const app = express();
const PORT = process.env.PORT || 3000;

// JSON parsing middleware
app.use(express.json());

// Custom request-logging middleware
app.use((req, res, next) => {
  const start = Date.now();

  res.on("finish", () => {
    const duration = Date.now() - start;
    console.log(`${req.method} ${req.originalUrl} - ${res.statusCode} - ${duration}ms`);
  });

  next();
});

// Serve the static HTML page at /
app.use(express.static(path.join(__dirname, "public")));

// GET /
app.get("/api", (req, res) => {
  res.send("My Week 2 API!");
});

// POST /user
app.post("/user", (req, res) => {
  const { name, email } = req.body;

  if (!name || !email) {
    return res.status(400).json({
      error: "Missing required data: name and email are required."
    });
  }

  res.send(`Hello, ${name}!`);
});

// GET /user/:id
app.get("/user/:id", (req, res) => {
  const { id } = req.params;
  res.send(`User ${id} profile`);
});

// 404 handler
app.use((req, res) => {
  res.status(404).json({
```

```
    error: "Route not found"
  });
});

// General error handler
app.use((err, req, res, next) => {
  console.error(err);

  res.status(err.status || 500).json({
    error: err.message || "Internal server error"
  });
});

app.listen(PORT, () => {
  console.log(`Server running on http://localhost:${PORT}`);
});
```
